Free Specification Assistance

The increasingly popular application of LED lighting is new to many design professionals. Let our **Lighting Layout Assistance Program** guide you in specifying the ideal product and wiring schematic for your next residential or commercial project.

How It Works

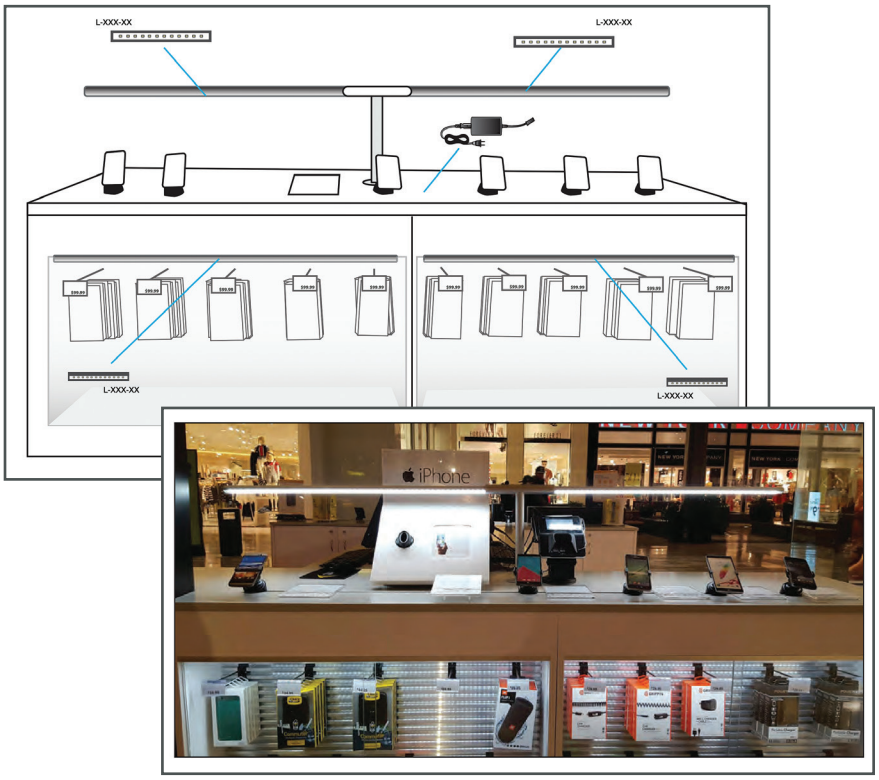
Step 1: Visit **trescolighting.com/layout**

Step 2: Upload dimensioned floor plan and elevation drawings of the project area

Step 3: Review layout provided by Tresco's in-house design team

Step 4: Contact Dakota to purchase specified Tresco products

Step 5: Install and done!



Why Choose tresco lighting

No Electrician Required!

Custom Lighting Solutions Based on Your Specific Needs.

Tresco's in-house design and manufacturing teams create LED lights to work with one power source. Other products require different power supplies for different lights, but **Tresco's LED lights are designed to work with a single 12VDC power supply. No more wiring nightmares.**

1. Universal Power Supply
2. Controller connects to the power supply
3. Light fixture connects to the controller
